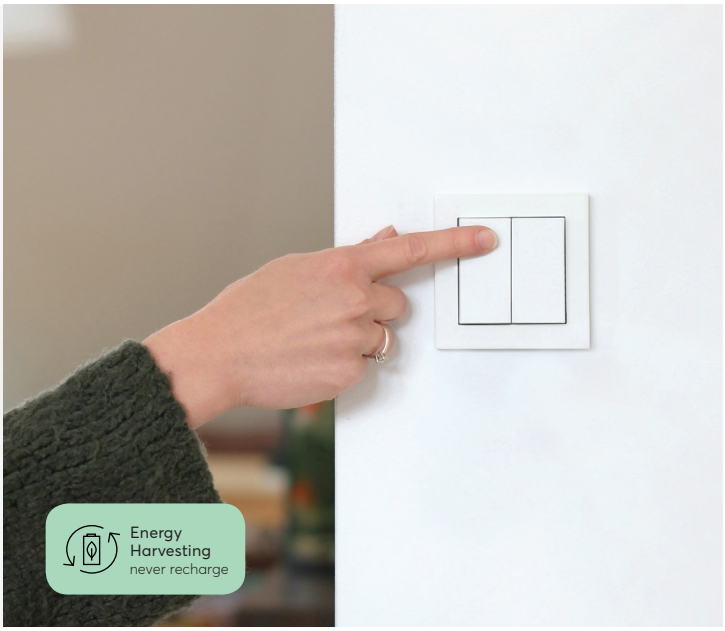
Friends of Hue
Smart Switch

The Friends of Hue Smart Switch is a smart light switch that gives you and your family simple and convenient control over Philips Hue compatible devices. Thanks to energy harvesting technology, you will never have to recharge this wireless switch.

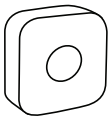


Control with ease

Trigger your Philips Hue lighting with a simple click:

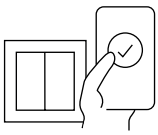
- On / off
- Dimming
- Trigger Scenes
- Control multiple groups

Simple setup



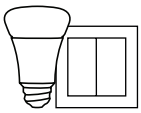
1. Connect

Connect the Friends of Hue Smart Switch directly to the Philips Hue Bridge V2 using the Philips Hue App.



2. Customise

Set prefereferences for which groups you want to control and which functions should be triggered with each button.



3. Enjoy

Put away your smartphone and experience seamless control throughout your home.
